

Grant Number	Organization	Award Amount	Grant Begin Date	Project Description
13-303001	Village of Avon	\$600,000.00	1/1/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to perform sewer re-linings and replacements to the municipal sanitary sewer system in the Village of Avon, Fulton County, following Spring 2013 excessive rainfall events that overwhelmed the sewer lift station and caused sewer back-ups. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 67.49%.
13-303002	Village of Banner	\$604,200.00	1/1/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to construct further municipal sanitary sewer treatment plant improvements in the Village of Banner, Fulton County, following Spring 2013 Illinois River and tributary flooding, which damaged the treatment plant and resulted in untreated sewer overflows into a stream. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 60%.
13-303003	City of Beardstown	\$365,134.00	1/1/2016	City of Beardstown Disaster Assistance funding to undertake municipal storm/sewer collection system improvements needed in the wake of Spring 2013 flooding. This Federally-funded grant will be used to design and construct repairs to a main trunk line located along Washington Street in the City of Beardstown, Cass County, following Spring 2013 flooding which damaged the collection system. Per Federal requirement, the low-to-moderate income project benefit will be 53.04%.
13-303004	Village of Blandinsville	\$400,000.00	1/1/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to construct storm water drainage improvements, in the northwest section of the Village of Blandinsville, McDonough County, following Spring 2013 excessive rainfall events that caused surface flooding, including on Illinois Route 9. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 68.79%.
13-303005	City of Bushnell McDonough County	\$589,000.00	1/1/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to perform sewer re-linings and replacements to the municipal sanitary sewer system in the southwest section of the City of Bushnell, McDonough County, following Spring 2013 excessive rainfall events that caused sewer back-ups. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 76%.
13-303006	Village of Good Hope	\$599,000.00	1/1/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to perform sewer re-linings and replacements to the municipal sanitary sewer system in the Village of Good Hope, McDonough County, following Spring 2013 excessive rainfall events that caused extensive surcharging that resulted in sewer back-ups. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 71%.

13-303007	City of Jacksonville	\$1,000,000.00	1/1/2016	City of Jacksonville Disaster Assistance funding to undertake the construction of a new water treatment needed in the wake of June 2011 flash flood damage to their existing water treatment plant. This Federally-funded grant will be used to construct a new water treatment plant on higher ground in the City of Jacksonville, Morgan County, following June 2011 flash flooding, which severely flooded and damaged the existing water treatment plant. Per Federal requirement, the national objective addressed will be Urgent Need.
13-303008	Village of Smithfield	\$570,638.00	1/1/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to construct a water main from the Village of Smithfield, Fulton County, to the unincorporated community of Bernadotte. Following Spring 2013 (and other years) Spoon River flooding, Bernadotte area wells were flooded or contaminated, resulting in weeks-long unavailability. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 52%.
13-303009	Village of Strasburg	\$600,000.00	1/1/2016	Village of Strasburg Disaster Assistance funding to undertake municipal sanitary sewer distribution improvements needed in the wake of Spring 2013 flooding and for IEPA - NPDES permit compliance. This Federally-funded grant will be used to design and construct sanitary sewer main replacement in the Village of Strasburg, Shelby County, following Spring 2013 flooding which damaged the clay tile collection system. Per Federal requirement, the low-to-moderate income project benefit will be
13-303010	Village of Tennessee	\$27,800.00	1/1/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to construct storm water drainage improvements and replacements, in the Village of Tennessee, McDonough County, following Spring 2013 excessive rainfall events that caused significant surface flooding. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 78%.
13-303011	Village of Tennessee	\$507,693.00	1/1/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to construct storm water drainage improvements and replacements, in the Village of Tennessee, McDonough County, following Spring 2013 excessive rainfall events that caused significant surface flooding. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 78%.
13-303012	City of White Hall	\$408,684.00	1/1/2016	This federally-funded grant from the U.S. Department of Housing and Urban Development (HUD) funding will be used to construct improvements to a wastewater treatment plant in the City of White Hall in Greene County following Spring 2013 high rain fall events and flooding which damaged the treatment plant and resulted in overflows of untreated sewage on land surfaces and into receiving streams.
13-303013	Village of Bardolph	\$600,000.00	2/1/2017	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to design and undertake municipal storm water drainage improvements in the Village of Bardolph, McDonough County, following Spring 2013 excessive rainfall events which flooded streets and properties, and forced in-flow water into basements and crawlspaces. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 75.93%.

13-303014	City of Beardstown	\$600,000.00	2/1/2017	City of Beardstown Disaster Assistance funding to undertake municipal storm/sewer collection system improvements needed in the wake of Spring 2013 flooding. This Federally-funded grant will be used to design and construct repairs to a main trunk line located at the intersection of Main St. and Monroe St. and the design and construction of additional sewer repairs on Adams Street from 14th St. to 17th St. in the City of Beardstown, Cass County. Per Federal requirement, the low-to-moderate income project benefit will be 53.04%.
13-303015	City of Lewistown	\$587,914.52	10/15/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to undertake municipal water source well field improvements in the City of Lewistown, Fulton County, following Spring 2013 excessive rainfall events which flooded and damaged the existing municipal wells. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 61.09%.
13-303016	Village of Pontoosuc	\$595,879.00	2/1/2017	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to undertake municipal road rehabilitations in the Village of Pontoosuc, Hancock County, following the Spring 2013 Mississippi River flooding event, which severely pitted municipal streets when the river overflowed its banks and spread through parts of the Village. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 52.08%.
13-303017	City of Warsaw	\$596,810.00	3/1/2017	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to undertake Water Street municipal road rehabilitation and ditch cleaning in the City of Warsaw, Hancock County, following the Spring 2013 Mississippi River flooding event, which severely scoured Water Street and filled in its adjacent ditches when the river overflowed its banks and spread through parts of the City. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 52.08%.
13-303018	County of Williamson	\$600,000.00	10/15/2016	This Federally-funded grant, from US Department of Housing and Urban Development (HUD) funding, will be used to construct storm water drainage improvements, in the unincorporated community of Cypress Gardens on the northwest side of Williamson County, following Spring 2013 excessive rainfall events that caused surface flooding and overflow into homes. Per Federal requirements, which maximize the benefit to low-to-moderate income status households, the low-to-moderate income benefit of this project is 62.6%.
