[20 ILCS 686/35]. Moreover, the Company shall not be entitled to the Credit with respect to any jobs resulting from acquisition, merger or any similar combination with another entity where such jobs existed in Illinois at the time of such acquisition, merger or similar combination.

F. Carryforward. Pursuant to Section 236(b)(4) of the Illinois Income Tax Act, the Company may carryforward any Unused Credit and apply it to its Illinois State Income Taxes imposed in the five (5) Taxable Years following the Taxable Year in which there is Unused Credit so long as the Company is in compliance with the terms and conditions of this Agreement, and subject to the limitations on the total amount of Credits for all Taxable Years, as set forth in Sections IV.B through IV.D.

G. Waiver. To the extent the Department determines a Noncompliance Date on a date that is beyond any deadline for the Illinois Department of Revenue to recapture any claimed Credit, the Company waives any right to assert that any provision in Section 905 of the Illinois Income Tax Act limits the authority of the Illinois Department of Revenue to recapture any claimed Credit.

The Utility Tax Exemption shall expire 10 years after Company's receipt of the certificate from the Department.

I. Building Materials Exemption. The Department shall issue a Certificate of Exemption which shall exempt the Company from any State or local use tax or retailers' occupation tax on building materials for the construction of the Project facilities. The Building Materials Exemption shall expire 5 years after Company's receipt of the certificate from the Department.

III. TERM OF AGREEMENT

A. Base. This Agreement shall commence upon the Effective Date and shall continue in effect until terminated in accordance with Section III.B, provided that the total number of Taxable Years under this Agreement shall not exceed fifteen (15) years from the date the Project is Placed in Service. The initial Compensation Floor for New Employees will be established as of the Effective Date. Using the Standard Occupational Classification ("SOC") Codes (the occupational classification system developed by the Executive Office of the President of the United States, Office of Management and Budget) proposed by the Company for each Full-Time Employee, the Department will annually publish county-level information to establish the wage standards applicable to the Project. Beginning on January 1, 2028, and continuing every four years thereafter, the Company shall ensure that the Compensation Floor is in fact 120% of the average wage paid to a Full-Time Employee in a similar position within the same detailed occupation by SOC code in the county where the Project is located. For example, the Company will use the Compensation Floor as of the Effective Date for a New Employee hired on January 1, 2025. On January 1, 2028, the Company shall ensure that employee's Compensation Floor is adjusted to comply with the current county wage at that time. The Compensation Floor will adjust every four years thereafter. To the extent a Full-Time Employee position is created that does not correspond to any positions on the Compensation Floor schedule in effect at the time of the employee's hire (or promotion or change in duties), the Company may propose a SOC code for that position and the Compensation Floor will be determined using the applicable county-level wage data for the corresponding SOC code and remain in effect until the next quadrennial update.
