

Green Wrap Report

A Green Wrap Report is a communications, learning and accountability tool that can influence future actions and key interest-holders, and reinforce the building of sustainable culture.

How to use this template: Please feel free to customize this template based on the requirements of your production or organization. This template is an example for a wrap report that can be completed for a single project, or for an organization reporting on an annual basis across all productions.

Project Summary

Project Name	
Production Company	
Producer(s)	
Shooting Location(s)	
Production Dates	
Sustainability Supervisor	
Certifications	

Final Carbon Footprint

Total Carbon Footprint (tonnes / CO₂e)

--

Include the full data set (all footprint inputs)

Methodology

Budget

Comparison with Carbon Budget

If you estimated your carbon at the beginning of production, include a comparison of actuals vs. your estimates.

[illegible]

Carbon Offsets

Did you offset your carbon footprint with a carbon offset? Y / N

Green Costs / Climate Overages
